Report of Slow & Advance Learners

Introduction

Education need to have the ability to improve students' potentials, namely religion spiritual power, self-management, personality, intelligence, virtuous morals, as well as skills needed by learners and society. Teachers carry an important role to resolve problems related to learning difficulties. Hence, the solution suggested to solve the problems are: collecting materials taken from economics textbook and electronic books; asking the teacher regarding the materials that are not yet fully understood; increasing the frequency of exercises or other sources; making summaries, schemes, and notes to ease the comprehension of economics materials'. and scheduling studying time outside the Class and at home as well as providing more studying media at home.

There are some students with high learning ability who can grasp quite fast and learn better but there are other students who needs frequent guidance and support. On the basis of their learning ability and pace students can be classified into Advance and Slow learners. As far as the Economics subject is concerned following characteristics are observed among them.

Difference

Slow Learners	Advance Learners
Not Active in Class	Active Participation in Class
Silent when ask the question on teaches topic	Ready to answer when ask the question on teaches topic
Low marks on Unit test	High marks on Unit test
Lazy in homework	Smart in homework
Low self-esteem	High self-esteem

ADVANCE AND SLOW LEARNERS REPORT FOR THE
YEAR 2023-24**

For the Advance Learners listed below, we have offered resources for reading books, notes, news articles, and magazines. In addition to the normal classes, we offered extra ones to help pupils.

For the benefit of slow learners, we added extra time to finish their problems. They are improved via repeated practice. A small number of kids struggle to grasp, but we again helped them by giving them notes and books. We took a review when the syllabus was finished.
