Introduction

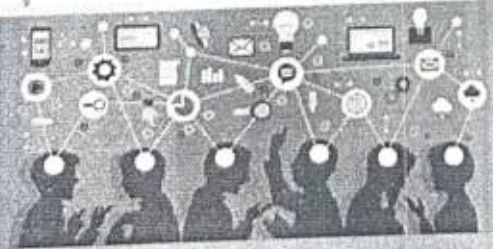

Quality education plays an important role in enhancing knowledge, developing skills, building confidence, and creating a positive impact on students. It empowers students to grow and lead responsibly. It also lays a solid foundation of academic growth. To ensure quality education, higher education institutions need focus on developing a balance between - imparting education & promoting skill development by providing facilities to explore various fields.

With the same motive, UGC has recommended CBCS to all the central universities since 2015-2016. The opportunity can be utilized until the deadline and the teachers in Assam, if not the system to be implemented and best to implement it as early as possible for all the stakeholders to know each and every aspect of CBCS.

Our Gauhati University, Assam is going to implement Choice Based Credit System from the academic year 2022-2023. The Choice Based Credit System (CBCS) is an educational course that offers students to opt for courses & subjects of their choice i.e. core, elective courses, open or global subjects & skill based courses. Unlike the traditional marking-based system, the CBCS grading system is based on earned credit in every semester.
