CMS – College Management System

Introduction to CMS

CMS stands for College management system. It is designed and developed by Biyani Technology, Kolhapur. CMS aims at immediate availability of data in required formats to ease the work of staff and management and increase in transparency and accountability in administration.

Modules are as follows:

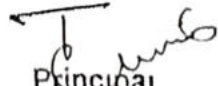

1. General module's
2. Student module's
3. Cashier module's
4. Report module's
5. Payroll

Benefits of CMS:

Campus automation software enables institutions of higher learning including colleges to manage admission and learning processes. They are designed and developed to provide real help in managing enrollment of students; attendance; monitoring faculty; providing fee details; and maintenance.

CMS is a comprehensive web based software with a multitude of user-friendly features all included in a very responsive design. The software would help in managing the entire system from academics to administration in a hassle free manner. The automated system allows teachers, students, parents and administrators to remain in touch with each other. It is for better communication and services.
