 - They will be able to visualize the real world situation and enhance them to initiate the programmers for pursuing studies and be alert with the importance of entrepreneurial skills for their self-employment, to improve the general attitudes and living conditions of the masses.
- Potential of the Programme** An economics degree will boost your employability in many areas, regardless of the industry you work in. There is strong demand for highly numerate graduates throughout the global labor market, and the widely transferable analytical and problem-solving skills developed by economics students means that careers in economics are extremely wide ranging and diverse. Below are a range of popular economics careers, with details on what to expect and the skills you'll need. While some choose to continue to study economics at graduate level, this is not a necessity to find a good graduate job. This shouldn't deter you from further study if you're aiming at highly specialized roles (such as becoming a professional economist), but it's useful to know that economics careers in finance and other sectors are widely available to those with just a bachelor's degree. See below for more common careers in economics. Economists and economics experts are at the heart of the business world and financial consulting. Economics graduates may find positions in large and medium-sized organizations where economic research is required. The role of an economic researcher requires in-depth knowledge of economic theories and models, thorough analytical and problem-solving skills and mathematical ability. Financial consultants in the area of economics would fill similar roles but may work for multiple clients instead of just one organization,

producing reports and advising on business strategy. Up-to-date industry knowledge and awareness of corporate finance is essential in these roles. Best career scope in Competitive Exam in Economics. like UPSC, MPSC, Banking, etc. Reserve Bank of India recruits economists in the banking sector through their own different recruiting examinations. Economists will have a depth of market knowledge. They will quickly understand the market trends and profitable sectors of business. Hence by creating their own business, they can soon achieve exponential growth. So a large number of job opportunities can be created this way. It will also be helpful to reduce the unemployment issue in the country. Three Years- Six Semesters Bachelor's Degree Programme- N

Physical Education

Health and Fitness Management [C.C,]

Course outcomes:

1. Comprehensive understanding of the various aspects of health, fitness, and wellness
2. Understand the fundamental principles of exercise science

Employability potential of the program

Home-Economics education is an education for life Home- Economics subject is an applied best in which all areas of courses is utilized in day-to-day individual life as well as community services. This area has vast potentials that develop learning communities. Home-Economics is an evolving practical discipline with a lot of employment potential in both academic and commercial sector. Home Economics covers areas of specialization such as Food and Nutrition, Communication and Extension, Resource Management, Human Development, Fabric and Apparel science. Home- Economics is a combination of art and science not only confined to food and nutrition but also Housekeeping, Textiles, Dietetics, Family Relations, Community living, Consumer Economics, Child Development and Hygiene. To begin with a career in this field, Students must possess rational mind along with realistic approach and an objective attitude increasing consciousness with respect to health, diet and way of life has increased the number of candidates taking up home economics as their career source.

With regards to Academic, students can also find teaching jobs in governmental and private schools and colleges, Students continues their further master degree and Ph.D. in the field of Home- Economics and take up NET examination in Home-Economics. Home-Economics students have a lot of opportunities of employment in private companies, NGOs, and entrepreneurship development Home- Economics graduates can run childhood care units like Daycare Centers, Crèches. Nursery school after- school centers and Health Centers. Health centers can provide special advice for the dietary needs of people suffering from different diseases. These centers will not only be a service to the community but would help them create employment for themselves and others. Students with BA degree can disseminate important information related to health conscious and community health. Being a part of television program or writing a cook book are great options.

In India, Home-Economics is in its emerging stage of development, So Home-Economics graduates have ample employment opportunities in private sector (cooking, fashion designer, housekeeping, dietitians), (social welfare officer, food analysts, fashion designer), government sector (scientists, professors, research assistant) and self-employment sector (boutique, cloths designing, coaching Centre, hobby Centre, child care, catering and health care). Thus, Home-Economics is an emerging academic discipline which has ample opportunities of technologies for conservation and is a unique discipline with a blend of science and art and a very useful application of this knowledge by learning community is play

pg. 3

favorable role in family life cycle effectively and try to make responsible citizen doing extension activities and community services
